## Features

- Low voltage drop at high currents
- Industry standard TO-252 (D-Pak) package
- 700 V breakdown voltage rating

## Applications

- White goods
- Small appliances
- Lighting controls
- Motor drives
- Meter readers
- Small off-line power supplies

## Ordering Information

| Device | Package Option |
| :---: | :---: |

[^0]:    Absolute Maximum Ratings are those values beyond which damage to the device may occur. Functional operation under these conditions is not implied. Continuous operation of the device at the absolute rating level may affect device reliability. All voltages are referenced to device ground.

    * Distance of 1.6 mm from case for 10 seconds.
